To All Families and Residents

PLEASE READ THE **ENTIRE** NEWSLETTER FOR IMPORTANT INFORMATION ON COVID. THIS IS THE PRIMARY MEANS OF COMMUNICATION ON THIS TOPIC.

#### **“WELCOME” TO OUR NEW FAMILY CONTACTS**

We are required to notify all residents, families and staff of a facility whenever we have a positive COVID test result for any staff member or resident. Two points of contact are required.

To help us meet these requirements, we have utilized a broadcast tool (School Messenger) to send emails and automated phone calls to up to two email addresses and two phone numbers per resident or resident contact, which is usually the first Health Care Proxy. The system then broadcasts to all the contact phone numbers and emails in this database. We also use this system to send out this update letter to our resident family contacts.

**You will also receive a broadcast when we have a staff member or resident test positive for COVID-19.** This includes an email *and a phone call*. We understand these phone calls can come at inconvenient times and would like to offer you the option to opt out of the phone calls for one or both of the numbers on file *so long as we have an email address on file to receive the alert*. This opt out will only effect the notification databases used by School Messenger. All contact info will remain on file in our Electronic Health Record, PointClickCare.

If you wish to opt out of alerts for one or both phone numbers we have file, please email me at [pm@goodshepherdcommunities.org](mailto:pm@goodshepherdcommunities.org) with the specifics. Please note it will take time to make the changes to the databases, so dependent on volume, there may be a delay from the time you make the request and the time the database revisions are completed. Thank you in advance for your patience.

**Changes to the information provided below are highlighted in green.**

### COMMUNITY LEVELS FOR BROOME AND CHENANGO COUNTIES

#### Broome County, New York

[State Health Department](#)

**COVID-19 Community Level**

● High

#### Broome County, New York

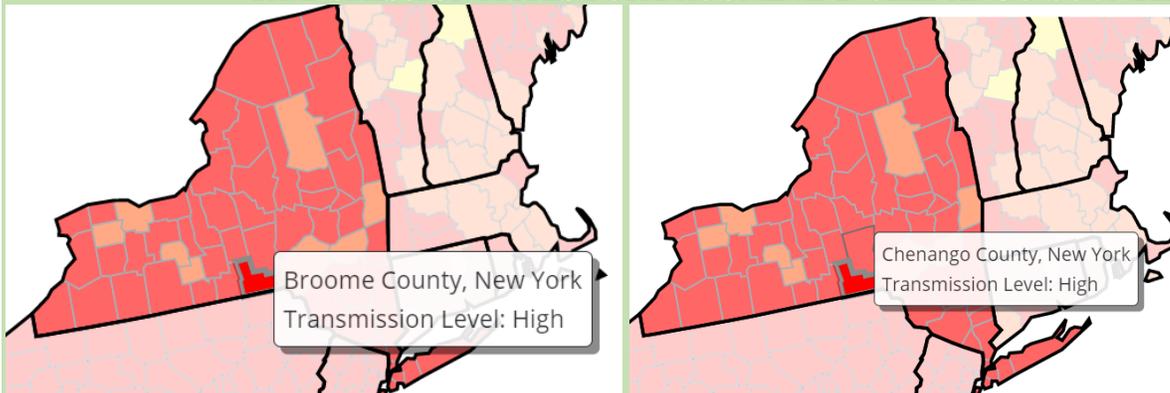

[State Health Department](#)

**COVID-19 Community Level**

● High

Masking recommendations are based on three factors — Covid hospitalizations, hospital capacity and new Covid cases — focusing more on preventing hospitals from getting overwhelmed and less on positive tests, which spiked during the omicron wave in December and January.

### TRANSMISSION RATES FOR BROOME AND CHENANGO COUNTIES

### CDC UPDATES COVID-19 RECOMMENDATIONS FOR HEALTH CARE SETTINGS

On Sept. 23, 2022, the Centers for Disease Control and Prevention (CDC) issued updates to its COVID-19 infection prevention guidance for health care personnel and guidance for managing exposed and infected health care personnel. It also retired its nursing home-specific infection prevention guidance and incorporated guidance for nursing homes into the

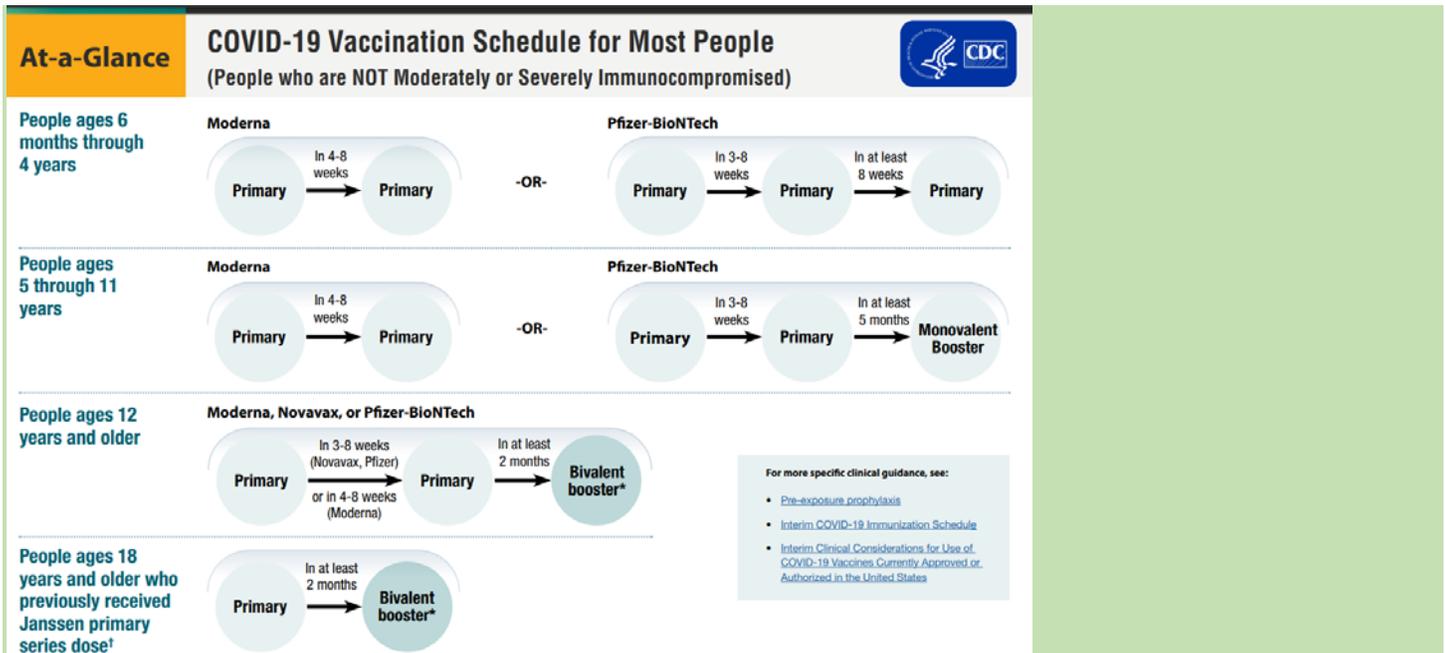

more general guidance. In addition, the Centers for Medicare and Medicaid Services (CMS) updated its nursing home visitation guidance, QSO 20-39-NH, and its testing guidance, QSO 20-38-NH, to align with the CDC guidance.

*However NYS DOH has not updated their guidance to reflect these changes. When they do so, we will provide a more robust review of these changes.*

## CDC RECOMMENDS ADDITIONAL **BIVALENT** BOOSTER FOR CERTAIN INDIVIDUALS

Summary of recent changes (source CDC website last updated September 2, 2022):

New booster recommendation for people ages 12 years and older to receive 1 bivalent mRNA booster after completion of a monovalent primary series; it replaces all prior booster recommendations for this age group.

## NYS Mask Mandate

On 9/7/22, Governor Hochul announced that masking will now be optional in multiple settings where they were previously required, including on public transportation, in for-hire vehicles, at airports, homeless shelters, correctional facilities, and detention centers. **Masks will continue to be required at Skilled Nursing, Adult Care** and health care facilities regulated by the state Department of Health, and in clinical settings regulated by the Office of Mental Health, Office of Addiction Services and Supports, and Office for People With Developmental Disabilities.

Given the Broome County statistics reported above, we are still concerned that the Community Transmission Level is at **High**, and given our vulnerable population, we will continue to require masks for both staff and residents in Independent Living when in public areas other than when seated for drinks or a meal. We will re-evaluate this policy on a regular basis.

Thank you

Patti Mackey
