

To All Staff

**PLEASE READ THE ENTIRE NEWSLETTER FOR IMPORTANT INFORMATION ON COVID. THIS IS THE PRIMARY MEANS OF COMMUNICATION ON THIS TOPIC.**

Changes in the information below are highlighted in green.

### **BOOSTER MANDATE FOR HEALTH CARE EMPLOYEES**

NYS announced it will not enforce the booster mandate that went into effect 2/21/22 and that they will re-assess this in 3 months. However, **GSC still strongly urges all staff to receive the booster when they are eligible to protect themselves, our residents, our staff and the greater community.**

**Booster clinics, available to employees, are scheduled for:**

**GS Village Endwell: Monday 3/21/22 11am**

**GS Fairview Home: Monday 3/21/22 9:30am**

**GS Chase: TBD**

The Medicine Shoppe has been extremely accommodating with providing the administration of COVID vaccines for GSC residents and staff. COVID clinics will still be available as needed, but we strongly encourage staff to sign up in advance for a clinic to avoid the Medicine Shoppe making unnecessary trips to our campuses. And if you sign up, you will be expected to report for your appointment, or to cancel with enough advance warning to allow us to notify the Medicine Shoppe.

**GSFH/GSVE:** Clinics are held weekly on Mondays. Staff will be required to sign-up for the vaccine by Friday in order for GSC to notify the Pharmacist he needs to come that following Monday. Please instruct staff to sign-up on the sheet located on the bulletin board outside of the HR Wellness RN's office. Managers may also email the HR Wellness RN the employees name and type of vaccination they wish to receive. If the Pharmacist is on site and an employee wishes to receive a vaccination without prior notification walk-ins will still be allowed.

**Chase:** Clinics are held monthly on Monday. Staff will be required to sign-up for the vaccine by Friday in order for GSC to notify the Pharmacist he needs to come that following Monday. Please instruct staff to sign-up on the sheet located by the executive secretary's desk. . Managers may also email the executive secretary, Jenn Carkuff, the employees name and type of vaccination they wish to receive. If the Pharmacist is on site and an employee wishes to receive a vaccination without prior notification walk-ins will still be allowed.

Booster Vaccinations are also available at many local pharmacies; CVS, Walgreens, etc., by appointment.

Once you have received your booster, please provide your HR RN Wellness Nurse (DON @ Chase) with your updated COVID vaccination ID card.

Any questions please contact the HR RN Wellness Nurse, DON at Chase, Human Resources or your Supervisor.

### 7 DAY METRICS FOR BROOME AND CHENANGO COUNTIES

#### Broome County, New York

[State Health Department](#) [↗](#)

[7-day Metrics](#) | [7-day Percent Change](#)

Cases	137
Case Rate per 100k	71.92
% Positivity	3.14%
Deaths	<10
% of population ≥ 5 years of age fully vaccinated	66.7%
New admissions of confirmed COVID-19 among county residents (estimated)	18

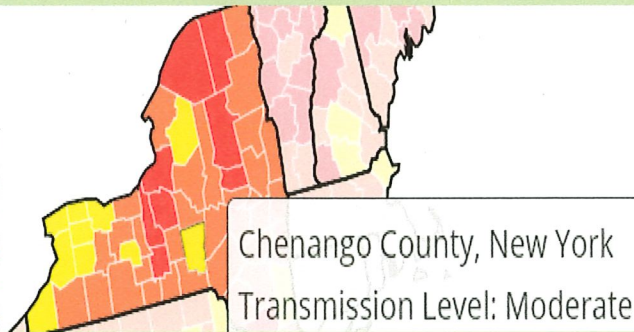

#### Chenango County, New York

[State Health Department](#) [↗](#)

[7-day Metrics](#) | [7-day Percent Change](#)

Cases	22
Case Rate per 100k	46.60
% Positivity	2.31%
Deaths	0
% of population ≥ 5 years of age fully vaccinated	64.1%
New admissions of confirmed COVID-19 among county residents	0

### CMS ISSUES NEW GUIDANCE ON EMPLOYEE TESTING: STAFF NOT FULLY UP TO DATE INCLUDING UN-BOOSTED STAFF SUBJECT TO ROUTINE TESTING

In general, the testing guidance replaces the term “vaccinated” with “up-to-date with all recommended COVID-19 vaccine doses” and deletes the term “unvaccinated.” In addition, it updates the recommendations for testing individuals within 90 days after recovering from COVID-19. “Up-to-Date” means a person has received all recommended COVID-19 vaccines, including any booster dose(s) when eligible.

As a result of this updated guidance, staff who are fully vaccinated and eligible for a booster, *but are not boosted*, must be tested routinely based on the [community transmission rates in your facility's county](#), along with those who are not fully vaccinated and those who are unvaccinated (i.e., exempt). In most counties, this is still twice weekly. Staff who are fully vaccinated and boosted and staff who have recovered in the prior 90 days do not need to be routinely tested for COVID-19. In general, the guidance provides that "testing is not necessary for asymptomatic people who have recovered from SARS-CoV-2 infection in the prior 90 days; however, if testing is performed on these people, an antigen test instead of a nucleic acid amplification test (NAAT) is recommended. This is because some people may remain NAAT positive but not be infectious during this period."

**Table 2: Routine Testing Intervals by County COVID-19 Level of Community Transmission**

Level of COVID-19 Community Transmission	Minimum Testing Frequency of Staff <i>who are not up-to-date</i> <sup>+</sup>
Low (blue)	Not recommended
Moderate (yellow)	Once a week*
Substantial (orange)	Twice a week*
High (red)	Twice a week*

<sup>+</sup>Staff *who are up-to-date* do not need to be routinely tested.

\*This frequency presumes availability of Point of Care testing on-site at the nursing home or where off-site testing turnaround time is <48 hours.

Good Shepherd will be following this guidance, and will be testing employees are not up to date including those who have not received the booster with frequency based on the new guidance.

**Broome County shows a substantial level of transmission, necessitating twice a week testing for staff not up to date with all eligible COVID vaccines.**

**Chenango County show a moderate level of transmission, necessitating once a week testing for staff not up to date with all eligible COVID vaccines.**

**NYS Mask Mandate**

The Governor has lifted the mask mandate for businesses, but noted Counties, Cities and businesses can choose to continue to require masks. The mask requirement remains in effect for the following:

- State regulated Health Care Settings
- State regulated Adult Care Facilities and Nursing Homes
- Correctional Facilities
- Schools and Child Care Centers
- Homeless Shelters
- Domestic Violence Shelters
- Buses and bus stations, trains and train stations, subways and subway stations, and planes and airports

**Given the Broome County statistics reported above, we are still concerned that the Community Transmission Level is at Substantial, and given our vulnerable population, we will continue to require masks for both staff and residents in Independent Living when in public areas other than when seated for drinks or a meal. We will re-evaluate this policy on a regular basis.**
