

January 14, 2022

To All Staff

PLEASE READ THE **ENTIRE** NEWSLETTER FOR IMPORTANT INFORMATION ON COVID. THIS IS THE PRIMARY MEANS OF COMMUNICATION ON THIS TOPIC.

Due to the Omicron variant's spread and new NYS guidance, we are resuming our weekly COVID updates in a new, revised format.

NEWS: NYS NEW COVID GUIDANCE

- **Health Care Personnel Vaccination and Booster Shots:**
 - All personnel must be up to date on their COVID-19 vaccinations as required by the NYS DOH emergency regulation, including booster shots at the appropriate interval.
 - This will become effective in the near future and we will have a 14 day grace period to comply.
 - Boosters are required 5 months after completing the primary series for Pfizer and Moderna, and 2 months after completing the primary series of the J&J.
 - We are identifying staff who will require a booster within the 14 day grace period, and will continue to track staff deadlines for the booster.
 - Failure to comply with this requirement will result in termination- this is a NYS DOH regulation, and our compliance is not optional.
- **Staff Masking:**
 - All staff must be masked at all times, regardless of vaccination or booster status.
- **Visitors Masking and Distancing:**
 - All visitors must wear a well-fitting non-surgical paper mask or a mask of higher quality (i.e., surgical mask, KN95, or N95) at all times during any visitation at the facility. If the visitor wishes, a cloth mask may be placed over the paper mask. The masks must cover both the nose and the mouth.
 - All visitors must physically distance from facility personnel and other patients/residents/visitors who are not directly associated with the specific resident(s) being visited by that individual.
- **Visitor Testing**
 - All nursing homes “must verify that visitors have received a negative SARS-CoV-2 test result one day prior to visitation for antigen tests and two days prior to visitation for NAAT (e.g., PCR) tests.” This means, for example, that a test for a Sunday visit should be conducted no earlier than Saturday if it’s an antigen test or Friday if it’s a PCR test. We can accept lab results or the results of a home test.
 - *GSC will begin requiring the test results as of Monday 1/17/22. Results should be presented at screening.*
 - GS will provide rapid tests for those unable to obtain them elsewhere. These tests can be obtained from the receptionist screening the visitor, but must be administered outside of the facility independent of any assistance from our staff. Unfortunately, our staff will not be able to provide direction or physical assistance with the testing, so visitors who are unsure of their ability to self-administer the test should make alternate arrangements.
 - For visitors who visit for multiple days, including a visitor who comes every day, proof of negative testing is required as often as feasible, at a minimum every third day (meaning at a minimum testing is required on day 1, day 4, day 7, and so on).
 - Exemptions:
 - Ombudsman representatives. Under certain circumstances, the resident and ombudsman should be made aware of the potential risk of visiting, and the visit should take place in the resident’s room.
 - Compassionate care visitors who are visiting in anticipation of end of life or in the case of significant mental, physical, or social decline or crisis. The visitor must wear any additional PPE that the facility deems appropriate.
 - Emergency Medical Services personnel.

COVID \$2 DIFFERENTIAL

Effective at the start of the next pay period, Good Shepherd will discontinue offering the \$2\hour differential when staff are providing care to residents who are COVID +. At the time we introduced this differential, the COVID pandemic was wreaking havoc on the Long Term Care industry, no vaccines had been developed and no effective treatments had been approved. While COVID remains a serious illness, we have a much better understanding of COVID prevention and containment, all of our staff are vaccinated, the vast majority of our residents are vaccinated, and multiple effective treatments have been approved.

Thank you

Patti Mackey

GSC COO
